

Transactional Risks / Representations & Warranties

FMG’s Transactional Risks / Representations and Warranties practice group is an interdisciplinary team of attorneys from across the Firm that stays on the cutting edge of legal developments affecting our clients in the transactional risk space.

Our team works closely with our clients to promptly investigate claims arising out of merger and acquisition transactions.

Whether the alleged breach involves compliance with laws, sufficiency of assets, errors made by the acquisition target in its financial statements, issues with internal controls, or any other breach of or inaccuracy in the representations and warranties of the acquisition agreement, we will assist you in quickly and efficiently resolving claims covered under the applicable insurance policy.
